

CROMAS

SPECIAL PAINTS

PAINTS INSPIRING CREATIVITY

special paints

These unique and distinctive paints bring new choices to the decorative finishes of many industrial and artistic surfaces.

Developed for product engineers, interior designers, and artists, these solvent-based 2K paints offer a special and long-lasting finish to surfaces such as wood, metal, and plastic. And with each surface, the result is the same beautiful finish.

The paints are applied with a professional spray gun that results in a highly durable finish with a very appealing look and feel.

The Special Paints were developed and manufactured by Cromas in Milan, in Italy. To see other Special Paints and colours not in this catalogue, visit our website at www.cromaspaints.com

vernici speciali

I materiali più ricercati sono quelli che ci circondano. Acciaio e ferro, cemento e ruggine. Tecnica ed estetica si fondono dando vita a questa collezione unica di vernici speciali.

Finiture materiche, estremamente realistiche e sorprendenti alla vista e al tatto che uniscono tradizione e innovazione.

Finiture professionali per l'industria e l'artigianato, adatte per superfici di legno, metallo e plastica. Strumenti unici e indispensabili per l'arredo, il contract, l'industria.

SM.002 Bronze

SM.003 Copper

Metallic Brass and Copper effect paints with bright metallic shine. Matt version also available
Vernice a elevato effetto metallico colore ottone, bronzo e rame. Disponibile anche in versione opaca.

A close-up, high-resolution photograph of a brushed metal mesh. The mesh consists of a regular grid of diamond-shaped openings. The lighting is dramatic, coming from the side, which creates strong highlights on the raised edges of the mesh and deep shadows in the recesses, giving it a three-dimensional, textured appearance. The overall color palette is monochromatic, ranging from dark greys to bright, metallic highlights.

BRUSHED

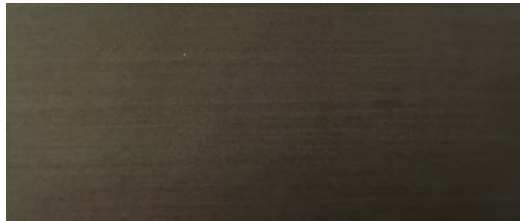

METALS

METALLI
SPAZZOLATI
